Gigi Hadid's Spicy Pasta

Recipe submitted by Weam AlAliyi

Who is Gigi Hadid?

Gigi Hadid is an American fashion model who has walked the runway for the biggest fashion designers in the industry.

Method:

In a large saucepan, heat the olive oil, garlic and onion. Cook until soft. Add tomato paste and cook until it appears “darker [in colour] / a bit caramelised”, says Hadid. Add in the heavy cream. Cook through until evaporated. Add in the red pepper flakes. [add in more flakes if you like your pasta extra spicy]. Keep stirring until combined. Season with salt and pepper. Remove sauce from the heat. Cook pasta separately. Gigi uses shells but Orecchiette would also work well. When the pasta is done, save ¼ of the pasta water before draining. Add in the butter. Stir over a medium heat till the butter has melted and the sauce is “saucyyyy”, says Hadid. Add pasta – and the pasta water – to the sauce. Add parmesan cheese and stir. Add more salt and pepper to taste. Top with a sprinkling of parmesan cheese and basil to serve. And that, my friends, is Gigi Hadid's Spicy Pasta.

*“Mmmm...
yum, yum!”*

Mental Health by Fatima Nasser

Heya! Are you alright? Everyone has problems too ya know! Even the happiest of people even a teacher or friend you just have to be aware of! You could just be nice by asking someone how they feel or by doing something good! One way of being good is by giving to someone in need, going outside and picking up trash, even spending time with a family member! You can even be nice to yourself, everyone deserves kindness even the ones who have done something bad don't be so hard on yourself and do something good with your life instead of thinking about it. Now it's not as easy as it sounds but you could try talking to someone! Even your own self. You have to remember we're all people with our own mistakes and everything! No one is perfect! And that's completely fine! Here's a fun fact! Did ya know? One in 6 young people experienced major depressive episodes in their life. Now you gotta keep in mind how many people are being born every day! THAT'S A LOT OF PEOPLE! A depressive episode is very serious and can be caused by many things. By being nice you would be making anyone's life a bit better.

Title: They Both Die at the End

Autho: Adam Silvera

Death cast calls a boy named Mateo to tell him that today is his last day and they also call a boy named Rufus. A few hours after those news they both download an app called "The last friend app" after texting with some other annoying people they eventually stumble upon each other they both didn't want to be lonely so they spent the rest of their time looking out for each other and making sure they both have an amazing last day. I highly recommend this book because the way the author describes the characters and settings just makes me feel as if I'm there in the moment. Little details in the book can make me laugh and cry. It's an amazing book that gets straight to the point but you still don't expect it when you're done reading.
